e) **FOOD-FOR-WORK**

The municipality of Santa Fe, just like other municipalities of Romblon Province are coastal areas. The Southwest monsoon or the “habagat” period covering the months of June to September adds to the flooding risks to almost eleven (11) barangays of the municipality. It is to be noted, that the areas not flooded in the last 5 years are now experiencing severe flooding. The municipality has lots of countryside developments especially on the road openings in the mountains and widening of roads to have a better road access that probably caused the heavy flow of rain water from the mountain. Southwest monsoon brings heavy rains that cause flooding. In order to manage its effects, preparedness activities are very essential. The onset of natural disaster can be sudden, but its effects/risks experienced by the community may take long period/years. Preparedness activities should be done in the community.

The activity was done in the eleven (11) barangays of the municipality of Santa Fe, Romblon. The following activities are as follows: Maintenance of barangay road, road clearing, river dredging and embankment. The program is beneficial to the community to lessen the effect of flooding and for the government to lessen the damages of facilities and other infrastructures. Moreover, the DSWD is mandated by the law to provide the resource augmentation and ensure that it shall benefit the less privileged sectors of the community. The DSWD released Five Hundred (500) Family Food Packs to be used for the Food-for-Work Program of the eleven (11) barangays in the municipality of Santa Fe, Romblon from activities mentioned above.

g) Kapit-Bisig laban sa Kahirapan-Comprehensive and Integrated Delivery of Social Services Kapangyarihan at Kaunlaran sa Barangay Cash-for-Work (CFW) Program for Persons-with-Disabilities (PWDs)

During this time of the Coronavirus Disease 2019 (COVID-19) pandemic, the vulnerability of society has increased to a greater degree, thus the exigency for immediate and even long-term interventions. In response to the need for the provision of social protection to Persons with Disabilities and the recognition of their human rights, together with the funding of allocation of the government the DSWD adopts the Cash for work Scheme in extending social protection interventions for them.

As of now, there is a total of four hundred fourteen (414) indigent Person with Disabilities in the municipality. The current situation of the Person with Disabilities leads to the implementation of the Department of the Social Welfare and Development to conduct Cash-For-Work Program for the selected Persons with Disabilities in the Province of MIMAROPA. The Cash-for-Work is a short-term intervention to provide financial assistance to distressed/ displaced individuals by participating in or undertaking preparedness, mitigation, relief, rehabilitation or risk reduction projects and activities in their communities or in evacuation centers. Work areas/programs are identified by the community under the leadership of the Local Government Unit. In exchange for the work rendered, program recipients are provided with cash to meet their requirement for food and other basic necessities. Cash-for-Work may be undertaken before, during or after the occurrence of any disaster whether natural or man-made. The implementation of the Cash-for-Work was managed by the LGDs' social welfare and development offices in coordination with the DSWD MIMAROPA. The following are the objectives of the program:

- To provide financial assistance through short-term employment among PWDs to support them financially;
- To promote the sense of belongingness in direct participation towards community driven development; and
- To encourage participation of PWDs to support the projects of the LGU for the development of their respective communities and municipalities.

A total of one hundred twenty two (122) PWDs benefited the program. Each of them received three thousand five hundred fifty pesos (Php 3, 550.00) as payment for ten (10) days labor. A total of four hundred thirty three thousand one hundred pesos (Php 433, 100.00) was spent for this program.
